

Mejia & Ruiz Land Surveyors, L.L.C.

101 W. Hillside, Suite 10
Laredo, Texas 78041
956-724-8423 956-724-7208 fax

Before meeting Paco Garcia of Discount Imaging of Laredo, Mejia & Ruiz Land Surveyors' office machines included an old copier, a fax machine and a couple of printers. Our problem was not only that these machines work independently of each other, but they also used different toner, ink and ribbon cartridges and were scattered all over the office. The people from Discount Imaging analyzed our situation and determined that all our office printing, faxing and copying needs could be handled by a single piece of equipment, that cost less than what we were spending at the time.

We now have a Muratec MFX-2850 that not only faxes, copies, and prints, but also scans and emails documents, giving us more capability than what we had before. This all-in-one copier now operates as our main printer on our computer network and allows us to switch paper sizes from our desks, greatly simplifying our printing process. We are extremely pleased with our all-in-one copier.

We highly recommend Discount Imaging of Laredo because of their commitment to quick personal service. Paco Garcia and his staff truly understand how important the equipment they sell and service is for our business.
