El Dorado Printing / Print Assurance

I'm greatly appreciative and impressed with the service provided by the Print Assurance program. We always have plenty of toner. When we have issues a technician is out the same day to address them. There is consistent communication to make sure our printer and copier needs are being met. If a printer or copier can't be repaired then, a loaner is provided same day. Your representatives are always courteous and eager to address our questions or requests. Overall I would rate your service as top notch. Keep up the good work. I look forward to a long relationship between our businesses.

Sincerely,

Phillip M. Ward
IS&T Manager
