Dear Jason,

I wanted to write you a quick letter to tell you how much we are enjoying the service provided by Cartridge on Wheels, Huntsville. Although cost savings is always of interest to any organization, Cartridge on Wheels provides so much more.

The organization of our inventory, complete with labels for the corresponding printers, has made the process of changing out toner and maintaining inventory user-friendly and time efficient. We look forward to our weekly deliveries and friendly customer service. Although the route concept has reduced the crisis need for toner, we have found Cartridge on Wheels to be extremely responsive to any of our changing needs.

We would strongly recommend Cartridge on Wheels to any business wanting to reduce the cost of printing and increase the productivity of their office staff.

Sincerely,

*Granda Barnes*
